## EXPERIENCE

### **Ondi Timoner - Rebel Rabbi: New York— Field Producer/Editor**

January 2020 - August 2020

Working as the field producer and editor on this film I have helped in condensing this film down to it's most important aspects. Going in, we were certain what we were after. After many editing hours, I helped us discover the connection to shame, early childhood, and this Rabbi's work. In addition to story editing work, I help conducted interviews, scheduled shoots, and coordinated a small crew. I researched our subjects, developing shoot days around their activities.

### **Great Big Story: Des Moines, Iowa - Producer**

September 2019

I shot and directed the Des Moines, Iowa section of the, *The Best Home-Cooked Meals From Grandma* video. It has gained over 120k views on just their youtube channel. I interviewed both the grandmother and grandson as they spoke about the importance of cooking and family.

### **350.org: New York - Climate Strike - Producer/Editor**

September 2019

I was commissioned by 350.org and Climate Nexus to interview some of the leading youth activities against climate change. After this, I edited the interviews down and together created a short campaign before the climate strike.

### **Google News Initiative: New York - Assistant Editor**

March 2019

Working with Snowdays studio I assistant edited a piece in collaboration with Google. I listened through interviews, using transcriptions to pull quotes as well as pulling things I found important.
